

## Pump Station Projects

The City owns and operates five (5) storm pump stations that are critical in conveying the stormwater to the Bay. The following pump stations are:

- 1740 Rollins Road
- 842 Cowan Road
- 1392 Marsten Road
- 1501 Adrian Road
- 1420 California Drive

The following pump stations are scheduled to be rehabilitated:

- 1740 Rollins Road
- 842 Cowan Road

A new pump station at Village Park is currently in the design phase and will reduce the localized flooding that occurs in south east side of Burlingame (Oak Gove Manor).
