

ECR Task Force Objectives: (1) Retain the character and health of “the grove,” and (2) Improve the safety of the roadway and sidewalks.

COMPONENT	ISSUES	CRITERIA	CURRENT CONDITION	EXAMPLE
 <p>Trees</p>	<ul style="list-style-type: none"> Tree health and stability. (<i>tree assessment pending</i>) Potential private property encroachment to meander sidewalk. Visibility at intersections. Serious root damage possible from roadway and sidewalk construction. 	<ul style="list-style-type: none"> Preserve and rehabilitate “the Grove” to be consistent with the criterion established by the 2012 by the Nat’l Hist. Register Designation. Develop a maintenance and monitoring plan for healthy trees. Phased replanting over time, 70:30 (elm/eucalyptus to “other”). <u>All</u> trees to “count” as visually contributory to the whole. Replant trees using 25-foot spacing. 		
	<ul style="list-style-type: none"> Tree roots lifting sidewalk. West side unprotected from traffic. Some trees embedded in retaining wall, which leans into sidewalk. Portion of public right-of-way being used privately. Incline of driveways. 	<ul style="list-style-type: none"> Improve safety for pedestrians. Make sidewalks ADA compliant. Plant trees between roadway and sidewalk. Install a double ADA ramp at each corner. Install lighting. Meander sidewalk for tree wells where needed. 		
	<ul style="list-style-type: none"> An ADA-compliant sidewalk is required for funding roadway improvements. Utility poles and boxes. Retaining wall creates perceived roadway hazard. Construction impacts to adjacent properties. 	<ul style="list-style-type: none"> Retain existing width of roadway. Improve crosswalk safety. Provide clear sight lines at intersections and driveways. Install quiet, smooth surface. Explore potential for underground utilities. 		
	<ul style="list-style-type: none"> Storm drain work needs to be coordinated with roadway improvements. 	<ul style="list-style-type: none"> Eliminate standing water on the roadway. Avoid sheet flow of storm water across El Camino Real. Protect adjacent property from flooding.
